OTHER TESTING REQUIREMENTS / HISTORY (PLEASE SPECIFY):

NOTES:

If you have specific testing requirements that are not shown in the price list or on the submission request please call the laboratory and we will make every effort to accommodate your request.

ALL samples are retained for a minimum of one week after receipt, thus enabling add-on testing if sufficient sample is remaining. Many add-on tests attract a discounted test charge.

Sample containers, other mailing supplies and pre-paid mailers can be ordered free of charge either online or by telephoning/emailing the laboratory.

Please ensure all samples submitted for laboratory investigations are appropriately labeled and sent under appropriate conditions (please refer to the price list for details).

Our team of veterinary pathologists and laboratory staff are always available to discuss specific testing and sample requirements, and laboratory results, at no additional charge.
